INSTRUCTOR: John Paul Cook

INSTRUCTOR EMAIL: jpcook@ou.edu

COURSE WEBSITE: http://math.ou.edu/~jcook/precalc/ I will post class documents, quizzes, exams, solutions, and announcements for this section here.

GRADING: Your grade will consist of several parts, worth different amounts:

**Quizzes and Homework (50%):** You will have a quiz every class period over the homework that was assigned in the previous class. The quiz questions will come directly from the homework problems, so doing well on the homework is essential for the quizzes.

**Exams (50%):** You will have 1-2 midterm exams (based on the progress of the class) and a final exam over the entire semester.

**COURSE MATERIAL:** Functions, domain, range, combinations of functions, linear functions, quadratic functions, complex numbers, polynomial functions, rational functions, inverse functions, graphing functions. Topics may change to accommodate the needs of the class.
