Algebra II: Notebook Grade

As stated in the syllabus, your notebook will be collected periodically for a grade. The notebook will be collected each time there is an exam, so your first notebook due date will be next Friday, June 27th, the day of your first exam.

Your notebook will be graded on the following items:

- **Class notes**: these are the sheets that we go over in class with the example problems. Include all of these in your notebook, and make sure that everything has been filled out that we have gone over in class.

- **Homework**: include all of your homework, homework solutions, and corrected homework.

- **Quizzes, Exams**: All old quizzes and exams must be included, along with any assigned corrections or make-ups.

- **Additional class notes**: any additional notes that have not been taken on your handouts must be included as well.

- **Organization**: your papers must be sorted together neatly, and your notes should be complete and readable.

If you are missing any papers that were distributed in class, you may print them off from the website: [http://math.ou.edu/~jcook/algebra2](http://math.ou.edu/~jcook/algebra2). Please make sure that everything in your notebook has been completed. In other words, do not turn in any blank handouts or assignments—obtain class notes from someone else in the class if needed.
