

Mathematics 2443-005, Fall 2009
Calculus and Analytic Geometry IV
MWF 12:30–1:20 pm, PHSC room 416

Instructor: Max Forester

Office: 1110 Physical Sciences Center

Phone: 325-2396

Email: forester@math.ou.edu

Office hours: tba

Text: The textbook for this course is *Calculus*, 6th edition, by James Stewart. We will cover material from chapters 15–17 in this course.

Course website: Up to date course information and announcements can be found at www.math.ou.edu/~forester/2443F09. The Desire2Learn system will be used only to post final grades.

Attendance: You are expected to attend all classes and participate fully, including being prepared to present daily homework problems (see below).

Homework: Homework will be assigned and due every class period. You should be prepared to present any of the homework problems due on a given day. Periodically I will collect it to be graded (these days will be announced in advance).

You are allowed (even encouraged) to work in small groups. However, you will need to prepare individual written solutions.

Grading scheme: Grades will be based on weighted totals from homework, three exams, and the final exam as follows:

Homework	15 %
Exam 1	20 %
Exam 2	20 %
Exam 3	20 %
Final Exam	25 %
Total	100 %

My impression of your class participation will affect your grade (positively or negatively) in the event that your composite score lies on a borderline. Also, regardless of your composite score, poor participation (being more than occasionally unprepared or absent, for example) will lower your course grade by one letter.

Exams: There will be three exams, given during the regular lecture time. The dates are Monday September 21, Monday October 26, and Monday November 23. Calculators will not be needed, or allowed, during exams.

The final examination will be held in the usual lecture room on Tuesday December 15, 1:30–3:30 pm. University regulations require that you take it at that time.

Academic misconduct: Visit <http://www.ou.edu/provost/integrity> for the rules governing cases of academic misconduct. See also the *Academic Misconduct Code*, which is part of the *Student Code* and can be found at www.ou.edu/studentcode.

Students with disabilities: The University of Oklahoma is committed to providing reasonable accommodation for all students with disabilities. If you require special accommodation in this course you are requested to speak with me as early in the semester as possible. Students with disabilities must be registered with the Office of Disability Services prior to receiving accommodations in this course. The Office of Disability Services is located in Goddard Health Center, Suite 166, phone (405) 325-3852 or TDD only (405) 325-4173.

Withdrawal Policy: Through October 2, you may drop the course and receive a “W” grade. From October 3 through October 30, you may withdraw and receive a “W” or “F” according to your standing in the class. Dropping the course on or after November 2 requires a petition to the Dean.
