

MATH 2513 COURSE INFORMATION
FALL 2012

Instructor: John Albert

Office: PHSC 1004

Phone: 325-3782

Office Hours: Mondays and Fridays from 12:30–1:30; Thursdays from 10:30 to 11:30; or by appointment

Materials: The textbook is *Discrete Mathematics and its Applications (7th edition)*, by Kenneth H. Rosen, published by McGraw-Hill. We will be covering portions of chapters 1, 2, 4, 5, 6, and 9.

Information about the course will be posted on the course page at **learn.ou.edu**. The home page for the course is also reachable at

www.math.ou.edu/~jalbert/courses/2513fa12.html .

Grading: The course grade will depend on your scores on homework and quizzes, three midterm exams, and a final. For each student, the two midterms on which they got the highest grades will count for 20% of their final grade, and the other midterm exam will count for 15% of their final grade. The final exam will count for 25%, and the quizzes and homeworks together will count for 20%.

The midterm exams are scheduled for Friday, Sept. 21, Friday, Oct. 19; and Friday, Nov. 16.

The final exam is scheduled for Tuesday, December 11, from 8:00 am to 10:00 am in the regular classroom, PHSC 117.

Make-ups: If you are unable to attend a test because of illness, please call me BEFORE the test begins. If I am not in my office, leave a message for me at the Mathematics Department; the number is 325-6711. I will arrange a make-up exam. Other potential reasons for make-up exams include absences related to other official university activities. These should be discussed with me in advance.

In general, make-ups will not be given for quizzes, and late homework will not be accepted. To account for the fact that sometimes missing a quiz or a homework is unavoidable, I will drop the lowest homework and quiz scores.

Academic Integrity: See the webpage <http://www.ou.edu/integrity/students.html> for explanations of what academic integrity and academic misconduct are, and what are OU's policies concerning them. (Mouse over "Students" at the top of the page and follow the links in the drop-down menu that appears.)

Religious Observances: It is the policy of the University to excuse absences of students that result from religious observances and to provide without penalty for the rescheduling of examinations and additional required class work that may fall on religious holidays. If you plan to be absent to observe a religious holiday, please notify me as soon as possible in order to make appropriate arrangements.

Reasonable Accommodation: Here is the University's policy on accommodation of students with disabilities.

The University of Oklahoma is committed to providing reasonable accommodation for all students with disabilities. Students with disabilities who require accommodations in this course are requested to speak with the professor as early in the semester as possible. Students with disabilities must be registered with the Office of Disability Services prior to receiving accommodations in this course. The Office of Disability Services is located in Goddard Health Center, Suite 166, phone 405/325-3852 or TDD only 405/325-4173.
